## Telemark Veterinary Consulting Inc. merges with Clinglobal Ltd.

Clinglobal is pleased to announce that as of 01 February 2022, it has secured the exclusive rights to the consulting business of Telemark Veterinary Consulting Inc. (TelemarkVet). TelemarkVet's principal consulting scientists – Jonathan Hare, DVM, PhD, Dipl ACVCP and Jennifer Heathcote, RVT, RLAT MSc(hons) – will provide Clinglobal with additional expertise in animal health product development strategies, GLP/GCP study design, and quality systems design and implementation.

Wessel Fourie, CEO of Clinglobal, said, *"We've worked with Jonathan and Jennifer for some time now, and the opportunity to add them to the Clinglobal family will serve to broaden and strengthen our position as a comprehensive, and the world's only truly international animal health Contract Research Organisation. Jonathan and Jennifer will join Clinglobal's Subject Matter Experts team as Director: Pharmaceuticals and Therapeutics and Director: Research Quality & Support and shall continue to support Clinglobal's clients as they have been doing until now. Moreover, we will ensure a smooth transition to all Telemark Veterinary Consulting customers while granting them direct access to the entire Clinglobal and the Clinglobal group of companies' breadth of services."*

### About Telemark Veterinary Consulting Inc. scientists:

*Jonathan Hare, DVM, PhD, Dipl ACVCP* - Jonathan is a veterinarian with a PhD in immunopharmacology. He has worked in technical support, regulatory affairs, and business development in the animal health industry. He was co-founder and president of one of the premiere animal health contract research organizations in North America for 14 years. Most recently, he was an independent animal health product development consultant and a visiting scholar at the University of Guelph. In 2021 he became a Diplomate of the American College of Veterinary Clinical Pharmacology.

*Jennifer Heathcote, RVT, RLAT, MSc(hons)* - Jennifer is a veterinary technician with a Master's degree in Pharmaceutical Medicine. Her experience spans clinical practice and pre-clinical research. Most recently, she was an independent animal health product development consultant and is a member of the Canadian Council on Animal Care Dog Guidance subcommittee. She has worked in the animal health industry for 15+ years, overseeing a multitude of regulatory studies on animal health products directed at the companion animal market. Jennifer brings with her a wealth of experience in study oversight, process improvement, and quality systems.

About **Clinglobal**: Clinglobal is an animal health-focused contract research organization acting as a contract holding and centralized service provider for the Clinglobal group of partner companies (including Clinvet, Clindata, Clinomics, and Cynvivo). Clinglobal's unique business model allows the animal health industry to benefit from simplified contracting solutions through a customizable all-inclusive approach to delivering comprehensive solutions for animal health product developments and research projects services through their proprietary research facilities and partner sites.
